Wise Stepmother

Have you heard about young Skeeter Roberts' annual pet, the tame owl "Blinky"? He had her about three years.

I say "her" because up to a couple of weeks ago nobody was quite sure. But now "Blinky's" a mother-of-two chicks!

Seems "Blinky" had been setting kind of strange—so on a hunch Skeeter put a couple of hen's eggs in her nest. Durn if "Blinky" didn't set on them for 5 days! Last Friday they hatched, and now "Blinky's" as proud as a mother hen! (So's Skeeter).

The bride is the daughter of Mrs. F. L. Rutledge and the groom is the son of Mrs. Pauline Hand of Clewiston and Guy Hand of Belle Glade.

Palms and baskets of white gladioli were used in the church decorations with lighted tapers in two seven branched candelabra on either side. Miss Marie-Anne Womack, pianist presented several nuptial numbers preceding the ceremony and Mrs. Bill Hill sang "Always" and "Because."

The full skirt was of floor length and ended in a chapel train. Her finger tip veil of illusion was held in place by a tiara trimmed with pearls and sequins matching the gown. She carried a bouquet of ruyhan, lily of the valley, and carnations centered with a detachable orchid.

The bride's mother chose for her a brooch and a corsage of pink carnations. The groom's mother wore a blue and white flowered print silk with white accessories and a corsage of white carnations.

CALIFORNIA RIVER

train load of Florida cattle over to be shipped to Western states. The cattle started the cattle would go on pasture upon arrival in

California and finish in a feed lot, eventually going to slaughter. It is understood that additional purchases of cattle will be made in Florida in the future.

When questioned as to the reason for going so far afield for the purchase of cattle to fatten in California, Young stated that drought conditions in the West and Mid-West forced buyers to look elsewhere for the type cattle wanted.

It appears Florida is at last coming into its own in the Cattle Industry when buyers will cross the continent to get what

they want. A change of slogan will soon be in order — "Western beef — Florida grown."

PETITION REQUESTS
(Continued from Page One)
quest of George Wedgworth, C. of C. president, that \$800 to be used for brochures, be transferred to the chamber's building fund.

The council passed four ordinances on first reading regarding the safety of children for landowners who have subdivisions, when selling off lots requiring them to furnish streets, water, main, curb, gutters, etc.; read a letter from Kruse brothers giving city an option to purchase the east 17 acres of land south of the Hillsborough for \$8,000 as a site for

the new health center. The council endorsed two resolutions, one for the four lane high way from the Glades to east coast and second that the proposed turnpike be as close to Belle Glade as possible.

Considerable discussion took place after a petition by some 30 persons in Northshore Glades, was presented by Charles Fontaine and Mrs. Guy Wood that cattle in the area were a menace to the safety of children, breaking loose through fences, causing obnoxious odors, flies, etc. The petition asked that the cattle be removed from the cattle be removed from the area to prohibit them being ranged there in the future.

A motion was made to turn the petition over to City Manager Carle that he consult City Attorney Claude Jones and that request be notified to remove the cattle from the city limits. Since other parts of the city are being used for cattle range, it was agreed by the commission to have a straw vote at the election in September to ascertain whether residents of the city are of the opinion that livestock be kept in the city limits.

The council appointed an election board for the special annexation election on July 1, as follows: G. L. Evans, Mrs. Lawrence Bassett, and Mrs. Mary Eggleston for the city; Dale Ellis, Mrs. Dale Ellis, Mrs. J. E. Hart and Mrs. H. L. Archer for the resident tree holders residing in area to be annexed.

TWO CARS DEMOLISHED; DRIVERS ESCAPE INJURY

By strange coincidences last week two Glades young men miraculously escaped death or serious injury in similar highway accidents as they were enroute to their respective homes after spending the evening with friends.

Frank Cline, local member of the police force, was able to clear the wheel of his car as he was opposite the Everglades Prison Farm on the Belle Glade - Palm Beach road, the car tipped over end to end, leaped the canal, and rolled over several times. He was found by the Belle Glade police on the canal bank and rushed to the Belle Glade Memorial Hospital for first aid. He suffered a gash on his leg and bruises over his body but was able to go to regular patrol the next morning.

Home Head, enroute to his home in Clewiston from Belle Glade, also went to sleep at the wheel. His car left the highway and plunged into the canal. He escaped without a scratch.

The cars in both accidents were a total loss. Mr. Head was married on Sunday to Miss Dolly Rutledge of Belle Glade and the young couple left immediately on their honeymoon.

South Bay's New Playground Now Fully Equipped - A Dream Realized - Almost Too Good To Be True

The apartment well equipped as many city parks found in much larger towns. South Bay residents are just proud to have. Home of the equipment being enjoyed by South Bay children is shown in photo below. Top left to the Ocean Wave; bottom left, Sea-Saw; top right, Jungle Jim Tower; center right, the Merry-Go-Round; bottom right, the Merry-Go-Round. Other children in photo are Larry Kewer, Richard Murray, and the Partridge, Linda Pledge, Nancy Henderson, Norrell Cartwright, Cecil White, Terry Henderson and Bryant Davis.

"It was all almost too good to be true," said Mrs. Floyd Stiller, when questioned about her efforts in securing playground equipment for South Bay's new city park.

A "dream" that began last fall when Mrs. Stiller, in talking with park superintendents in several surrounding communities, heard of the work done by the Hatcher Foundation for children, New York City, became a reality with the dedication last week of the James B. Jeffries Memorial Park and Equipment in South Bay. Encouraged by her husband and Principal and Mrs. Pelton Morris, Mrs. Stiller wrote Mrs. Arthur Stuebeck, president of the Foundation, in New York City, making known to her the equipment needs of South Bay Park. Returning from a trip to Cuba in February, Mrs. Stuebeck visited South Bay and made a survey of park needs, which resulted in donation of some \$5,000 of playground equipment for all ages of children.

Prior to her arrival City Officials had enthusiastically accepted the project and offered any needed assistance. Now a paid playground supervisor, Miss Myrtice Gilman, is on duty from 3 to 6 o'clock to oversee the children's play.

Lying adjacent to U. S. Highway 27 Park facilities are also available to passing tourists and a boon to mother's in planning children's parties.

Class party given in FAREWELL TO SIX GRADE

A farewell to South Bay

It's a BUICK!
It's a V8! It's only

\$2527.38*

TAKE heart, good friend—you can buy a bit-of-the-year Buick if you can afford any new car.

And we proudly show our price here to prove it.

For this price is the delivered price—the least delivered price—of the new Buick Wildcat 2-door, 6-passenger Sedan—now it's just a few dollars away from those of the so-called "low-price" cars—lower, in fact, than even some models of those very same cars.

But look what this Buick price gets you!

It gets you the very look of tomorrow in styling modernity, even to the spectacular new panoramic windshield that seems to outdate everything before it.

It gets you Buick V8 power—highest in

SPECIAL history—plus the economy of new Power-Head Pistons.

It gets you Buick room, Buick luxury, Buick size and structure and solidity—including of course, the famed Million Dollar Ride and a new precision in handling ease.

It gets you, too, solid and deep-down value.

"For any way you look at it, you're money ahead with the car that's years-ahead now in looks and line and the lift of its power—and the one that's outlasting every other car in America except two of the 'low-price' three."

Drop in today or the first thing tomorrow—just to try and to drive and to compare a new Buick. We'll let the car prove its points.

WHEN BUYING AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

three shot vaccine test. Pins were also awarded first and third graders for their participation in the program.

During the remaining months of the year, evaluators will observe polio incidence in the test areas and collect necessary data toward determining the vaccine's effectiveness in preventing paralytic polio.

SUMMER SAFETY URGED BY FLA. SAFETY COUNCIL

This school term is now over and here is a timely suggestion for the parents of the 600,000 children who will be romping all over the state of Florida.

These children will be doing all the things that a child's mind can conceive. It is up to the parents and grown-ups to protect these young ones from harm.

Playgrounds are provided for the children in most of the communities. This will help keep the youngsters off the streets and highways.

The largest number of children killed in traffic accidents are the five to 14 year group and most of these are killed during vacation.

"Let's all try to make this a SAFE SUMMER," urged Asher Frank, Director of the Florida Safety Council.

"Remember," continued Frank, "children do a lot of swimming without supervision. Parents are cautioned to keep their children from swimming for at least one hour after meals.

as well as themselves. Be sure there is a grown-up around and do not permit the children to be "show-offs".

By Helen Smith

The month of June finds much activity at Okeechobee Center. Every one is getting ready for the annual trip up the Eastern Seaboard. Numerous check-outs have been made during the last two weeks.

Last weekend Henry J. Poole, Sr., attended commencement exercises at the A and M University, Tallahassee, where his daughter, Jancena, along with Miss Willie Pearl Foster of Okeechobee were among the 220 seniors receiving their degree on Monday morning, May 31.

Mrs. Mattie Poole accompanied her son to the graduation. Chester Barber, who has been in the Veterans Hospital in Coral Gables is improving nicely and is at home, at 43 Canal Street.

During absence of Rev. G. E. Penson, Home Mission Council workers, at Okeechobee Center, Coach Lightwood is in charge of recreation.

Several of the teachers of EVH will be leaving soon for summer school.

Any items of news in the Center, please leave at office.

LETTER TO THE EDITOR

(Editor's note: The following article on segregation has been submitted for publication by Mary Pearl Rosenwald Elementary School in South Bay.)

As I write this article, all around me I see and hear the word "Segregation" and as I see and believe, I think both races are getting too excited to fight.

The Supreme Court's decision has far from solved the problem, but has brought about immense relief to every thinking American, North and South, white and black. And even though the Court's ruling says Non-Segregation, the storm will continue to rage, but in due time, the storm will subside as all storms do.

The Courts will still have to decide as how de-segregation will be brought about, in some cases communities will move at once to do the Court's will.

Some sections will be where they are now next year and some for years to come. There will need to be more gulls. But by large after a lot of problems have been solved, the South will all slowly abide by the Court's decision.

I say slowly because de-segregation program cannot be laid wholly at the white man's door. And Negroes in the South must and should know that even if the Supreme Court's decision

were implemented tomorrow the fight against discrimination will have to continue for a long time. Our only gain is that segregation's back has been broken. For three-quarters of a century

there has been segregation. The plain fact is that this getting together of the races is not as simple as it may appear to some people. I have faith to believe that over the years we'll develop

a more perfect understanding. But I do know that it isn't here yet. Education is one means of solving this segregation problem. If more of our people

were educated there would not be so many problems and it would not take too many years to solve them. A big victory has been won, but not the battle—far from it.
